INTELLIGENT BUILD.TECH

A technology intelligence platform helping to share building innovations globally. It is aimed at the construction sector across EMEA, APAC, North America and LATAM.

ur ethos is based around intelligence obtained from targeted campaigns. By understanding our audience we are better informed to advise our clients and help forecast market trends.

We work with our clients to identify new customers and their requirements. In a nutshell, we:

CREATE original, thought leading content

ENGAGE senior IT and business leaders globally

DELIVER powerful campaigns and targeted leads

ABOUT INTELLIGENT FIN.TECH

ntelligent Fin.tech is a technology intelligence platform aimed at the financial sector across EMEA, APAC, Latin America and North America. Finance has been a key vertical for Intelligent CIO since it started, which prompted the launch of Intelligent Fin.tech. It highlights the rapid digitalisation of the sector. The industry is emerging as a leader in technology, with more banks moving their operations fully online and cybersecurity becoming a pressing

matter in this space. For CFOs, it can be hard to keep track of everything and even more difficult to know how to prioritise their investments. *Intelligent Fin.tech* aims to solve this by gathering all the latest financial information and presenting it on one platform. Subsequently, this will keep key decision-makers informed through thought leadership and industry expertise, ultimately allowing senior executives to make well-rounded, realised conclusions.

AUDIENCE BREAKDOWN

s more financial institutions move operations online, the need for technology has never been greater. Steps are being made, with Gartner's 2022 CIO Agenda: A Banking and Investment Perspective identifying that 76% of banking and investment respondents were educating CEOs and other senior stakeholders on the value of IT.

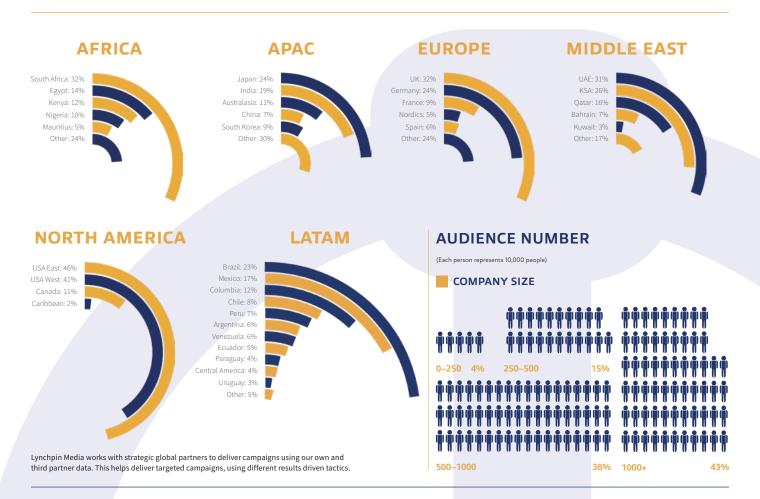

However, CFOs tend to see technology as a tool but rely on people to make decisions, according to Dennis Gannon, Vice President, Research in the Gartner Finance Practice. He also believes that even when evidence shows that technology makes better, more accurate decisions, people are still reluctant to use it.

Unfortunately, this will not suffice as the industry continues to digitalise. Technology is now vital for businesses, and

CFOs must embrace it to fully achieve autonomous finance. Intelligent Fin.tech aims to educate CFOs, their teams and the wider C-suite (CEOs, CIOs) about technology and offer a range of resources so financial services can be streamlined and automated, as well as helping decision-makers navigate the digital finance space.

Our integrated platforms enable the industry to receive the content it needs in a manner that suits it. It is our unparalleled understanding of this audience that enables Intelligent Fin.tech to deliver effective campaigns aimed at ensuring maximum return on investment combined with sustained brand awareness across our digital platforms. Strategic partnerships with regional industry bodies, events and research companies enable us to both manage and grow the audience.

AUDIENCE % BY REGION As of 1st October 2023, Intelligent Fin.tech communicates with more than 4,934,095 financial industry professionals globally.

AUDIENCE NUMBER BY JOB FUNCTION

SOLUTIONS

Brand awareness

Dedicated regional magazines and websites offer a wealth of advertising and awareness opportunities.
